

CENTRAL VALLEY EYE MEDICAL GROUP, INC

WELCOME TO THE PRACTICE

Welcome to Central Valley Eye. You have chosen a leading eye care facility. Our goal is to make your experience here as pleasant as possible. Everything we do is geared toward providing you, our patient, the highest quality medical and surgical care possible. You should plan to be here 1 ½ to 2 ½ hours, depending on the extent of your examination and any additional tests, studies, or procedures that might be required.

PHYSICIANS:

Our physicians are trained in the diagnosis and treatment of all eye diseases. Each has specialized medical and surgical training beyond the M.D. degree, with special interests in cataract, glaucoma, pediatric and oculoplastic surgery.

CHILDREN:

Appointment's for children are broken into two parts. The first portion of the visit includes visual acuity testing and external examination. Dilating drops are then instilled. It takes 45 minutes for the pupils to dilate adequately. We recommend you take this time to run errands, get something to eat, etc, and then return to the office. The second portion includes testing to determine if your child requires eyeglasses (refraction). A thorough examination of the inside of the eye is also performed.

Due to distractions and space constraints, we request that additional children do not accompany the child-patient to their appointment.

PLEASE BRING WITH YOU TO THE APPOINTMENT:

Medications – please either bring a current list of all medications you are taking, or the medications in the bottles as received from the pharmacy.

Eyeglasses – please bring your best or most recent eyeglasses, even if they no longer improve your vision. The glasses will provide important information about the past condition of your eyes.

Insurance Cards – please bring all current insurance cards with you to the appointment. We will bill your medical insurance, primary and secondary, for the medical eye exam and any additional tests, studies or procedures performed. Any unpaid visits due to invalid insurance cards will become the patient's (parent/guardian) responsibility.

Photo ID – We are required to obtain a copy of your photo ID. This is to protect you from someone else using your medical insurance (a type of identity theft).

INSURANCE & PAYMENT (please refer to your insurance handbook additional information):

Self-Pay – If you are not covered by medical insurance, we will ask for payment-in-full at the time of service.

Medicare – We accept assignment on Medicare. If you are a Medicare beneficiary and do not have secondary coverage, you will be responsible for payment of 20% of the Medicare allowed amount.

Deductible – Be prepared to pay your medical insurance deductible if it has not been met for the year.

Copays – You are required to pay your insurance copay at the time of service. The copay amount is usually noted on your insurance card or can be found in your insurance handbook.

HMO/Managed Care – If you are insured through an HMO or Managed Care plan you may need a referral/authorization from your Primary Care physician before your appointment. Any unpaid visits due to invalid or non-referral will become the patient's (parent/guardian) responsibility.

Non-Covered Services – Some services might not be covered by your insurance. Most medical insurance plans, including Medicare, do not pay for "routine eye exams." Routine Eye Exams are exams which **do not** result in a medical diagnosis. For example, diagnoses such as myopia (near-sightedness), hyperopia (far-sightedness), astigmatism, presbyopia (aging eyes) would not be considered medical. Routine eye exams also include "screening for eye disease" which does not result in a medical diagnosis. In the event of service not covered by your medical insurance, you will be responsible for the charges.

Payment Options – We accept Cash, Check, Debit, Visa, MasterCard & Discover.

REFRACTION:

Refraction is a measurement of near-sightedness, far-sightedness, and astigmatism. Refraction is part of a complete eye exam and will be done at the initial visit. Medicare and most medical insurance do not cover refraction, but it is frequently necessary, to establish what a patient's best-corrected vision is. The refraction fee is \$55 and due at time of service, whether or not it results in a prescription for eyeglasses.

DILATION:

Your pupils will probably be dilated during the initial visit. Dilation lasts several hours and may blur your vision. If you have not previously driven with dilated pupils, you may want to bring a driver. We offer dilation reversal eye drops for a fee of \$35.

GENERAL INFORMATION:

Office hours are Monday – Friday 8:00 am to 5:00 pm (except holidays). We encourage you to call us anytime you have a question or problem with your eyes. Non-emergency calls are best handled during business hours.

Emergency and after-hour calls are handled by our answering service or forwarded to the Physician on-call.

Local Phone Number: Stockton 209-952-3700 or Manteca 209-239-5303 or Modesto 209-579-8800

Fax Number: Stockton 209-952-0553 or Manteca 209-239-0090 or Modesto 209-579-1407

Billing Department: 209-952-0458

LOCATION:
